# ABOUT US

## Managing Partners

**Mr. PVS Nageswara Rao**

**Mr. Abhijeet Deshmukh**

**Mr. Anand Deshmukh**

Adwita Industries LLP is based in Pune, Maharashtra is into manufacturing and supplying high-quality structural and equipment fabrication for the industries such as Power plants, chemical plants, steel plants, and construction industries. Adwita Industries have reached experience and understanding of large turnkey projects is an established engineering organization Limited Liability Partnership (LLP) firm incorporated and registered under LLP Act, 2008, providing engineering jobs such as pressure vessel fabrication, heavy structural fabrication, bag filters, chimneys, chemical equipment for sugar, stacks, and many more as per drawing specification and requirement from various industrial sectors. Established in 2017, Adwita Industries has gained a proven reputation for safety, quality, reliability, and professionalism.

With five years of learning, Adwita Industries, now poised to make EOT cranes, construction equipment, and particular purpose products, an emerging heavy material handling equipment manufacturer, grew the business in specialized manufacturing, fabrication supply, and servicing for domestic and global organizations.

# Safety, Quality & Healthy Environment

## Our Vision

To expand and continually improve quality practices and employee involvement to manufacture structural equipment for all process industries in the global markets that result in customer and employee satisfaction.

## Our Mission

To support all process industries like boiler and power plant structural, conveyor systems, and Material Handling equipment to supply structural and equipment fabrication with zero defects.

## Our Core Values

- 
- The best customer-centric organization with fast response and close relationships.
  - Building Strong relationships with internal and external customers.
  - Continual learning and development organization.
  - Passion for perfection and innovation.
  - Contributing back to the ecosystem at large.

# Our Deliverables

01

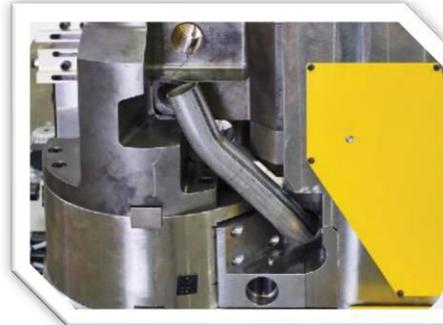

## Structural Fabrication

- 1.1. Power Plant Structurals
- 1.2. Conveyor structures
- 1.3. Process and chemical industries
- 1.4. Oil and Gas
- 1.5. Steel Plant Structures
- 1.6. Metro Projects

02

## Equipment Fabrication

- 2.1. Material Handling Equipment – EOT cranes and Gantry cranes
- 2.2. Crusher Equipment
- 2.3. Construction Equipment
- 2.4. Civil structures
- 2.5. Electric charging station equipment
- 2.6. Grab buckets 2.7. Girders 2.8. Piping

03

## Welding Facilities

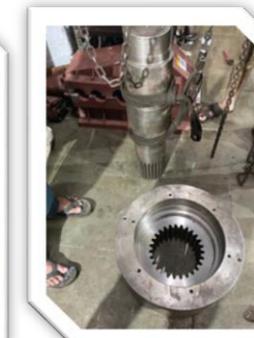

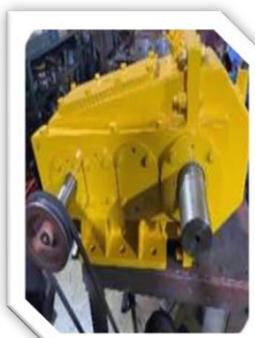

- 3.1. SMAW
- 3.2. CO2 and Argon Welding
- 3.3. FCAW
- 3.4. SAW
